Professional Summary

Lead Software Engineer with 10+ years of mobile & cross-platform development experience across iOS, Flutter, and enterprise solutions. Proven record of delivering 20+ high-impact applications in transport, logistics, fintech, and edtech, achieving 99.9% crash-free performance and 100% App Store/Play Store approvals. Experienced in enterprise-grade architecture design, cloud integration (Firebase, Azure), CI/CD automation, and secure systems. Skilled at leading cross-functional teams, driving end-to-end project delivery, and collaborating with international clients in consulting environments. Strong focus on business impact, with achievements such as reducing delivery times by 20% in logistics solutions and enabling 99.99% secure transactions in fintech apps. Immediate joiner, open to opportunities.

Core Competencies

- Technical Leadership: Agile/Scrum, Stakeholder Collaboration, Sprint Planning, Team Hiring & Mentorship
- Mobile & Cross-Platform: Flutter, Dart, Swift, Objective-C, SwiftUI, UIKit, React Native
- System Architecture: Scalable Mobile Solutions, Modular Design, Clean Architecture, SOLID, API Integration
- Cloud & Backend: Firebase, Azure, REST APIs, GraphQL, Core Data
- Engineering Practices: CI/CD, Jenkins, TDD, Unit/UI Testing, Test Automation, Crashlytics, Fastlane
- Consulting Skills: Client Interaction, Requirement Gathering, Solution Design, Enterprise Delivery Oversight
- Deployment: App Store, Google Play, TestFlight, Enterprise Distribution

Professional Experience

Technical Lead | Infinite Computer Solutions – Gurugram (Apr 2023 – Present)

- Directed a 5-member Flutter team on enterprise projects, improving performance by 35% through modular BLoC architecture.
- Led client demos and requirement workshops, ensuring business alignment with technical delivery.
- Mentored 8 junior developers, reducing review cycles by 50% and improving delivery timelines.
- Managed 6 successful enterprise deployments with 100% App Store & Play Store approvals.
- Collaborated with global stakeholders in transport & infrastructure projects, ensuring on-time delivery.

Software Engineer | Streamsource Technologies – Gurugram (Jun 2021 – Dec 2022)

- Built a Smart Fleet Management App enabling real-time tracking and route optimization for 1,500+ riders.
- Reduced delivery delays by 20% and improved customer satisfaction ratings.
- Integrated GPS tracking, Firebase synchronization, and push notifications.

Software Engineer | Randstad India – Bangalore (Jan 2020 – Apr 2021)

- Developed logistics & rider management apps supporting 1,000+ daily riders, reducing delivery times by 20%.
- Implemented real-time route optimization and Firebase-powered tracking, enabling better SLAs for transport clients.
- Contributed to infrastructure-related mobile solutions, relevant to transport/urban mobility projects.

iOS Developer | Nulurn Edutech – Bangalore (Dec 2018 – Jan 2020)

- Built an edtech platform with 10,000+ active users, integrating video lectures, quizzes, and offline features.
- Improved UX & performance, earning a 4.6★ App Store rating.

iOS Developer | ZerIT Solutions – Chandigarh (Apr 2018 – Dec 2018)

- Delivered 12+ client iOS projects across healthcare, e-commerce, and utilities.

iOS Developer | Ablysoft Pvt. Ltd. – Chandigarh (Jan 2017 – Apr 2018)

- Developed enterprise iOS apps with Core Data synchronization and scalable UI designs.

iOS Developer | Meetram Solutions – Chandigarh (Jan 2015 – Jan 2017)

- Contributed to 10+ iOS projects, building expertise in UIKit, networking, and app performance.

Key Projects

- Enterprise Cross-Platform App (Flutter) – Scaled to 15,000+ users, improving performance by 35%, with Firebase/GraphQL integration and 99.9% crash-free rate.
- Smart Fleet Management App (iOS/Flutter Hybrid) – Enabled real-time tracking and route optimization for 1,500+ riders, reduced delivery delays by 20%, achieved 4.7★ App Store rating.

Education

B.Tech, Information Technology
Geeta Institute of Management & Technology, Kurukshetra (2008–2012)

Achievements

- Delivered 20+ enterprise-grade apps with 99.9% crash-free performance.
- Achieved 100% App Store & Play Store approval across all submissions.
- Improved app performance by 40% through optimization.
- Maintained 4.6+ average ratings across live apps.
- Successfully led & mentored teams, improving delivery cycles and quality.
